MYTECH
TECHNOLOGY FOR DREAMERS

Avevamo già in mente ciò che volevamo realizzare con Mytech.
Non desideravamo produrre semplici bauletti per moto ma realizzare i nostri sogni da motociclisti.
Siamo fortemente convinti che non esista soddisfazione più grande che vedere moto equipaggiate con i propri prodotti, pronte per macinare km e km di strada.
Studiamo, progettiamo e realizziamo le valigie come se dovessimo equipaggiare le nostre moto.
Vogliamo realizzare il meglio senza compromessi.
Questa è una sfida continua.

*We already had in mind what we wanted to achieve with Mytech.
We did not want to produce simple cases for motorcycles but make our motorcycle dreams come true. We are strongly convinced that there is no greater satisfaction than seeing motorcycles equipped with their own products, ready to grind miles and miles of road.
We study, design and manufacture motorcycle suitcases as if we were to equip our motorcycles.
We want to achieve the best without overcoming.
This is an ongoing challenge.*

PASSIONE E MOTO

Passion and bike

In Mytech viviamo la passione per la moto e per il lavoro come un'unica cosa. Tutti noi sappiamo che non stiamo producendo una semplice valigia, perchè quella sarà compagna di viaggio per migliaia di km e quindi dev' essere perfetta. Ci piace sognare insieme a voi, ci piace vedervi partire con le valigie vuote e tornare pieni di avventure e sogni realizzati. Perchè noi siamo motociclisti come i nostri clienti.

At Mytech we live the passion for motorcycles and for work as one thing. We all know that we are not producing a simple suitcase, because that will be a travel companion for thousands of km and therefore must be perfect. We like to dream with you, we like to see you leave with empty suitcases and come back with adventures and dreams come true. Because we are motorcyclists like our customers.

THE FREEDOM CASES

The Freedom Cases

Mytech ha sempre cercato d'essere attenta anche ad aspetti sociali ed etici legati al mondo della moto. "The Freedom Cases" è il progetto che ruota intorno al concetto di libertà, presentato all'EICMA. Abbiamo coinvolto tre artisti legati al mondo della moto: Filippo Fiumani, Pasquale Esposito di EvoSound e l'avventure rider Simone Zignoli con Marika Lodirio, che hanno creato delle opere d'arte decorando le nostre valigie, messe poi all'asta a scopi benefici.

Mytech has always tried to be attentive also to the social and ethical aspects related to the world of motorcycles. "The Freedom Cases" is the project that revolves around the concept of freedom, presented at EICMA. We involved three artists linked to the world of motorcycles: Filippo Fiumani, Pasquale Esposito of EvoSound and the adventure rider Simone Zignoli with Marika Lodirio, who created works of art by decorating our suitcases, which were then auctioned for charitable purposes.
